

Handy city centre car parks

Since the closure of the Friary Outer car park for redevelopment, we've been monitoring city centre car parks closely. We know the Friary Inner, University, Sandford Street and Bird Street car parks (marked in pink overleaf) can be very busy, but there are still lots of spaces in other city centre car parks throughout the day and at weekends.

So if you're visiting Lichfield and want to find the best places to park at busy times try the car parks marked in blue on the map on the reverse of this flyer.

For more information about car parking in Lichfield visit
